Profile

A confident and conscientious person always willing to learn and explore new things. Strong at Technical skills along with creative ideas and solutions.

Education

- **MCA Generative AI (2024 - 2026)**
Alliance University, Bangalore, India
-Pursuing SGPA – 8.8
 - **BCA (2021 - 2024)**
Hindusthan College of Arts and Science, Coimbatore, India
SGPA – 7.6
-

Internship

- **Software Development:**
Gateway Software Solutions, Coimbatore (November 2022 – January 2022)
 - Completed an internship focused on Python Programming and software development fundamentals.
 - Gained practical experience in writing, debugging and executing Python Programs for real-world use cases.
 - Assisted in developing small-scale automation scripts and mini-projects under team guidance.
-

Projects:

- **American Sign Language with Deep Learning** – American Sign Language with Deep Learning uses neural networks to automatically recognize and interpret ASL gestures from images or videos.
 - **Heart disease prediction using Machine Learning** – It involves training algorithms on patient data (like age, blood pressure, cholesterol levels) to predict the risk of heart disease
 - **A Face Detection System using OpenCV** – It is designed to automatically detect and recognize faces from a live camera feed or image to mark attendance efficiently and accurately.
-

Skills:

Programming & Tools:

- Proficient in Python, Java, and C++ for software development and problem-solving
- Experienced with IDEs such as VS Code and Android Studio for coding and debugging
- Familiar with Git and Github for version control and collaborative development
- Worked with XAMPP/WAMP for local server setup and web application hosting

Web Development:

- Skilled in building responsive and interactive web pages using HTML, CSS and JavaScript
- Knowledge of front-end development principles and UI/UX design fundamentals
- Experience in designing and prototyping interfaces using Figma and Adobe XD

Database Management:

- Proficient in MySQL for relational database design, querying, and data manipulation
 - Familiar with MongoDB for NoSQL database management and integration in web projects
-

Certifications:

- Introduction to Java and Object-Oriented Programming by Pennsylvania
 - Python Project for Data Science by IBM
 - HTML, CSS and Javascript for Web Developers by Johns Hopkins University
 - Machine Learning: Classification by University of Washington
 - Data Analysis with R by IBM
 - Introduction to Database by Meta
 - What is Data Science? By IBM
 - Foundations of User Experience (UX)
 - Teamwork Skills: Communicating Effectively in Groups by University of Colorado Boulder
-

Workshops & Seminars Attended:

- **CloudSEK Cybersecurity Seminar (2025)**
-
